About Calculators in the Test Delivery System

Desmos calculators have been embedded within the OSAS assessments since 2016. These Desmos calculators are used by millions of students around the world, and can be accessed from the web, or on iOS and Chrome apps. This calculator is fully accessible at the WCAG 2.0 AA level (optimized for blind and visually impaired students).

Three versions will be used in OSAS assessments:

Four-Function Calculator

Available for the following tests: Mathematics Grade 6 and Science Grade 5

<http://demo.tds.cambiumast.com/DesmosForAssessments/TDSCalculator.html?mode=basic&url=https://or.tds.cambiumast.com/student>

Scientific Calculator

Available for the following tests: Mathematics Grades 7-8

<http://demo.tds.cambiumast.com/DesmosForAssessments/TDSCalculator.html?mode=scientific&url=https://or.tds.cambiumast.com/student>

Graphing Calculator

Available for the following tests: Mathematics HS and Science Grade 8 and HS

<http://demo.tds.cambiumast.com/DesmosForAssessments/TDSCalculator.html?mode=graphic&url=https://or.tds.cambiumast.com/student>

The Desmos site (www.desmos.com) contains a wide array of resources to help both teachers and students become familiar with the calculator. The Desmos site includes an Oregon specific page (<https://www.desmos.com/testing/oregon>) that provides information about testing calculators and includes a flyer available for download.

The full Desmos user guide is available at:

https://s3.amazonaws.com/desmos/Desmos_Calculator_User_Guide.pdf

TIP: Do not click the Return to Login button on the sample calculator pages. The sample calculator pages have a button in the top right corner that says Return to Login. This button directs to a page that is only accessible in the Secure Browser. Because these sample calculators can only be accessed in Google Chrome or Firefox, clicking this button will lead to an error page.

Accessing the Sample Calculators

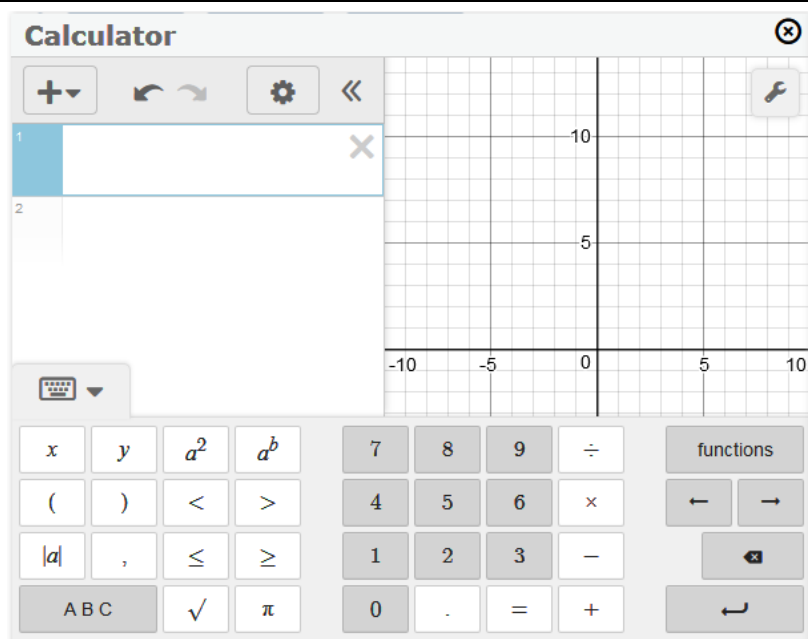

All sample calculators are available on the OSAS portal at <https://osasportal.org/resources/other/sample-calculators>. We encourage bookmarking the sample calculators so that users can easily open them. Desktop/home screen shortcuts can also be created so that the sample calculators can be accessed without an internet connection. The online calculators work on all supported browsers, as listed on the [Supported Web Browsers](#) page on the OSAS portal.

Open a Sample Calculator on Windows/Mac

1. Navigate to the OSAS portal > Resources > Search “Sample Calculator”

2. Click on a [Calculator] link.

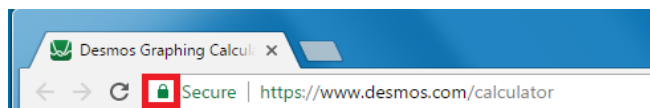

The sample calculator you selected will open in a new browser tab.

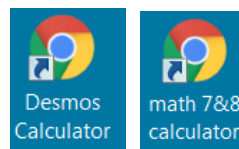

Create a Desktop Shortcut to the Sample Calculator

Note: Ensure the browser window does not take up the full monitor.

1. Use your mouse to hover over the lock icon in the address bar.
2. Click and drag the lock icon to the desktop. A shortcut will appear that says “Calculator” and have the Firefox or Chrome icon.

3. *Optional: Rename shortcut icon*
 - a. Click in the icon text and it will become editable.

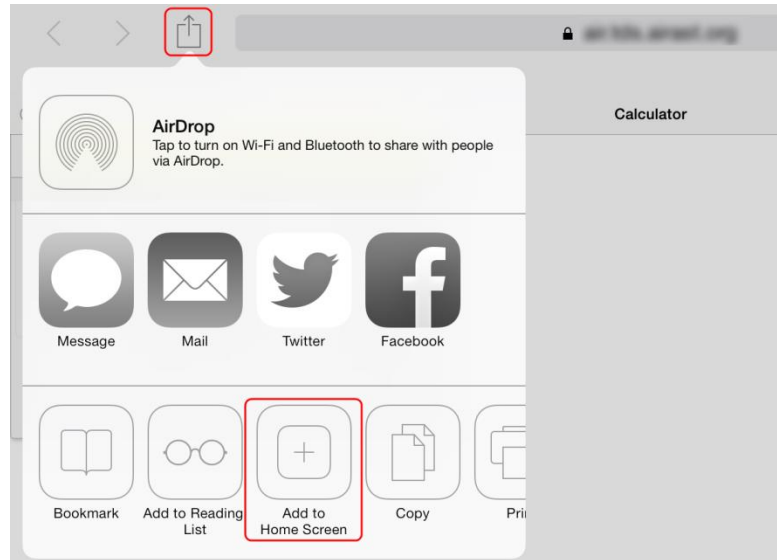

- b. Change the text to what you want (e.g., “Graphing Calculator”).
4. Double-click the icon to open the sample calculator. It will open in Firefox or Chrome.

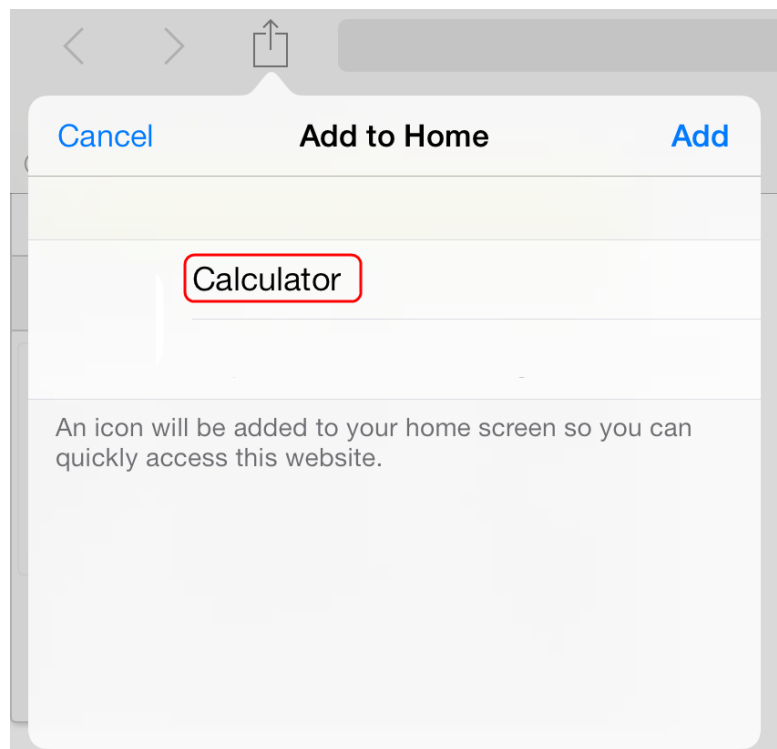

Open a Sample Calculator on a Mobile Tablet

Save a Sample Calculator to your Home Screen for iPadOS 13.7 and 14.5-14.6

1. Tap the “share” icon [], which appears just to the left of the address bar.
2. Tap the [Add to Home Screen] icon.

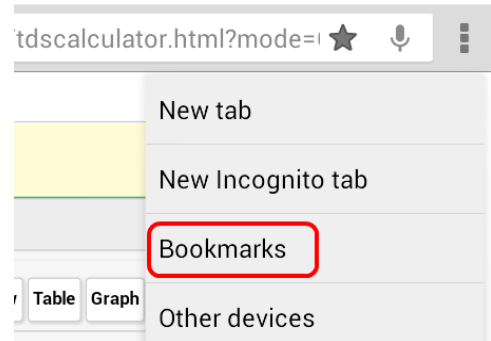

3. *Optional: Rename shortcut icon* (By default, all sample calculators are named “Calculator.”)
 - a. Tap on the text that says “Calculator.”
 - b. Using the tablet keyboard, add or modify text (e.g., “Graphing Calculator”).
4. Tap the blue [Add] link. The shortcut icon will appear on the Home screen.

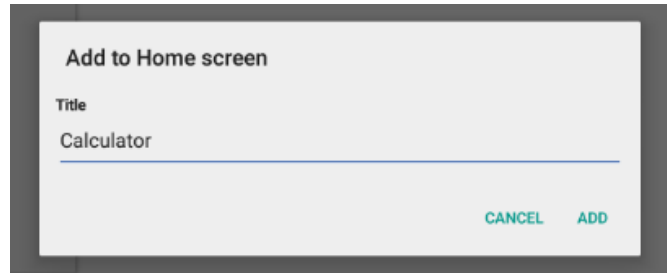

Add the Calculator Bookmark to the Home Screen

1. Tap the menu [☰] icon, which appears in the upper right corner. The menu will open.
2. Tap [**Bookmarks**]. The list of your bookmarks will appear.

3. Tap on the calculator bookmark.
4. Tap the menu [☰] icon.
5. Tap [**Add to home screen**]. Another window will pop up. Click the add button. The bookmark will be added to your tablet's home screen.
